

PLATINUM HEALTH's Chief Information Officer tells us why she chose to vaccinate

PLATINUM
HEALTH

Sharon Botha Chief Information Officer

Protecting me and protecting others, but most of all protecting my family.

There are so many reasons to get vaccinated and many messages about what the vaccination is, but the one that stood out for me said the following:

What is really inside the vaccine?

- Forgotten kisses and hugs.
- School trips and school sport.
- Grandparents at your Sunday lunch table.
- Sold out theatre shows.
- Busy airports and open borders.
- Time with your friends and family.
- Sports fans, laughter and fun.
- And the best thing is that you can still stay home if that's what you want.
