

# Platinum Health Medical Scheme

IS **NOT** linked to any insurance company

PLATINUM  
HEALTH

During the past few days, Platinum Health has received numerous calls from members enquiring whether Platinum Health Medical Scheme is linked to insurance companies.

Members have received calls from Insurance companies claiming that they work hand in hand with Platinum Health (PH) to provide extra cover to boost PH benefits and provide gap cover for their shortfall on claims. This is not accurate as Platinum Health is NOT linked to any insurance company.

Members are reminded that PH covers members comprehensively in the event of illness, through its extensive designated service providers (DSPs) network and own medical facilities. Therefore, members do not need additional cover.

*To eliminate any confusion, please note that Platinum Health Medical Scheme is registered as a closed medical scheme, and in no way associated with any other insurance companies.*
